

PhD STUDENT ANNUAL REVIEW

The student is responsible for completing the annual review form and submitting to their assigned Faculty Mentor each year. An annual review meeting, between the student and faculty mentor, will then be scheduled to discuss student's progress and goals. The annual review meeting is to be completed by April 15th. The final form should be signed by both and forwarded to the PhD Program Coordinator and then Director of the Doctoral Program, who will review it and file it in the student's formal record in the PhD Office. Copies also should be retained by the student and the student's faculty mentor.
